# Annual Report for 2014

After several years of relatively little structured activity, the Eureka Connection conducted three major projects in 2014:

Providing the online version of the book Begin Practical with THEORI see https://eurekaconnection.wordpress.com/being-practical-with-theory/

Conducted a workshop "Looking Ahead to the next Decade:  responding to a Range of Future Scenarios in Digital Communication and Coordination" on Oct 3 2014 on, Level 1 Enterprise 1 Building, Innovation Campus University of Wollongong with a report to come

Provided leadership for the IT and Seniors program: members of the Eureka Connection have led and run a successful program creating computer kiosks and running weekly session to increase digital literacy among residents of three aged-care facilities in the Shoalhaven region: the Basin View Masonic Village, IRT Sarah Claydon at Milton and IRT St Georges Basin (See http://eurekaconnection.wikispaces.com/).

These projects were all conducted by members on a volunteer basis.  Grant funding will be sought in 2015 to expand these activities
